There are 'cash machines' and then there's the all-singing, all-dancing Easypoint 3800. What's the difference? Where do you start?

Moving well beyond the realms of cash dispense, the top of the range Easypoint 3800 offers unparalleled data processing and multimedia performance. So while lesser ATMs struggle to cope with demanding transaction, security and advertising-related applications, the Easypoint 3800 takes them all in its stride. Offer customers a host of revenue-generating applications, such as check cashing, bill payment, prepaid cards and money orders – effortlessly.

Boasting a Windows XP operating system, the Easypoint 3800 doesn't just welcome processor intensive applications, it allows them to be developed rapidly and easily on a universally recognised software architecture.

The best applications demand the best delivery channel. And here too the Easypoint 3800 excels. The perfect complement to all that power and versatility behind the scenes, the Easypoint 3800's 10.4" high-resolution display shows full-screen and full-motion MPEG-2 advertising and entertainment videos to their maximum potential. It will stop passers-by in their tracks. To complete the picture, the Easypoint 3800's optional Sidecar Module enables bill validators, security cameras, biometrics hardware and full-bed scanners to be added quickly and easily.

And the cost of all this power and functionality? A lot less than you'd think.

What's so special about the Easypoint 3800? In a nutshell – everything!

easypoint<sup>™</sup> is part of the NCR Corporation, the world's leading supplier and developer of ATMs. No-one understands self-service like we do. Across the world, in industries as diverse as retail, travel, hospitality, health and finance, NCR helps businesses and consumers realize the enormous productivity, convenience and cost benefits of self-service.

Combining global leadership in financial self-service with a refreshing, cross-industry approach to the challenges of tomorrow, no-one is better placed to help you implement self-service strategies that will reduce cost, generate revenue, build loyalty and improve the customer experience.
